## ISSHO suspension

ISSHO is inspired by rock crystals and their facets. This modular suspension consists of elements assembled to each other, without any limit. Bright spots are located inside the volume.

It is also possible to adapt this model to made-to-measure projects: the size, shape and brightness of each element can be re-defined in collaboration with the interior designers, the elements will be created in our workshop in France.

Dimensions	Long. 1m80 x width. 0m60 x height 45cm
Weight	10 kg
Packaging	1m20 x 60cm x 45cm
Materials	Translucent Polycarbonate / matte finish White PV Steel wire
Color	white (translucent and/or sanded)
Luminous elements	6
Light source	24V Leds Temperature 2700 K° (warm white) Luminosity 3 000 lm Consumption 96W Efficiency 70 lm/W IRC > 90
Power supply	110V or 220V 24V Transformer White rosace ( location of the transfrmer)
Fire classification	B s1 d0 (M1) UL 94 - V2
Options	Remote control RGB Leds

Fabriqué en France

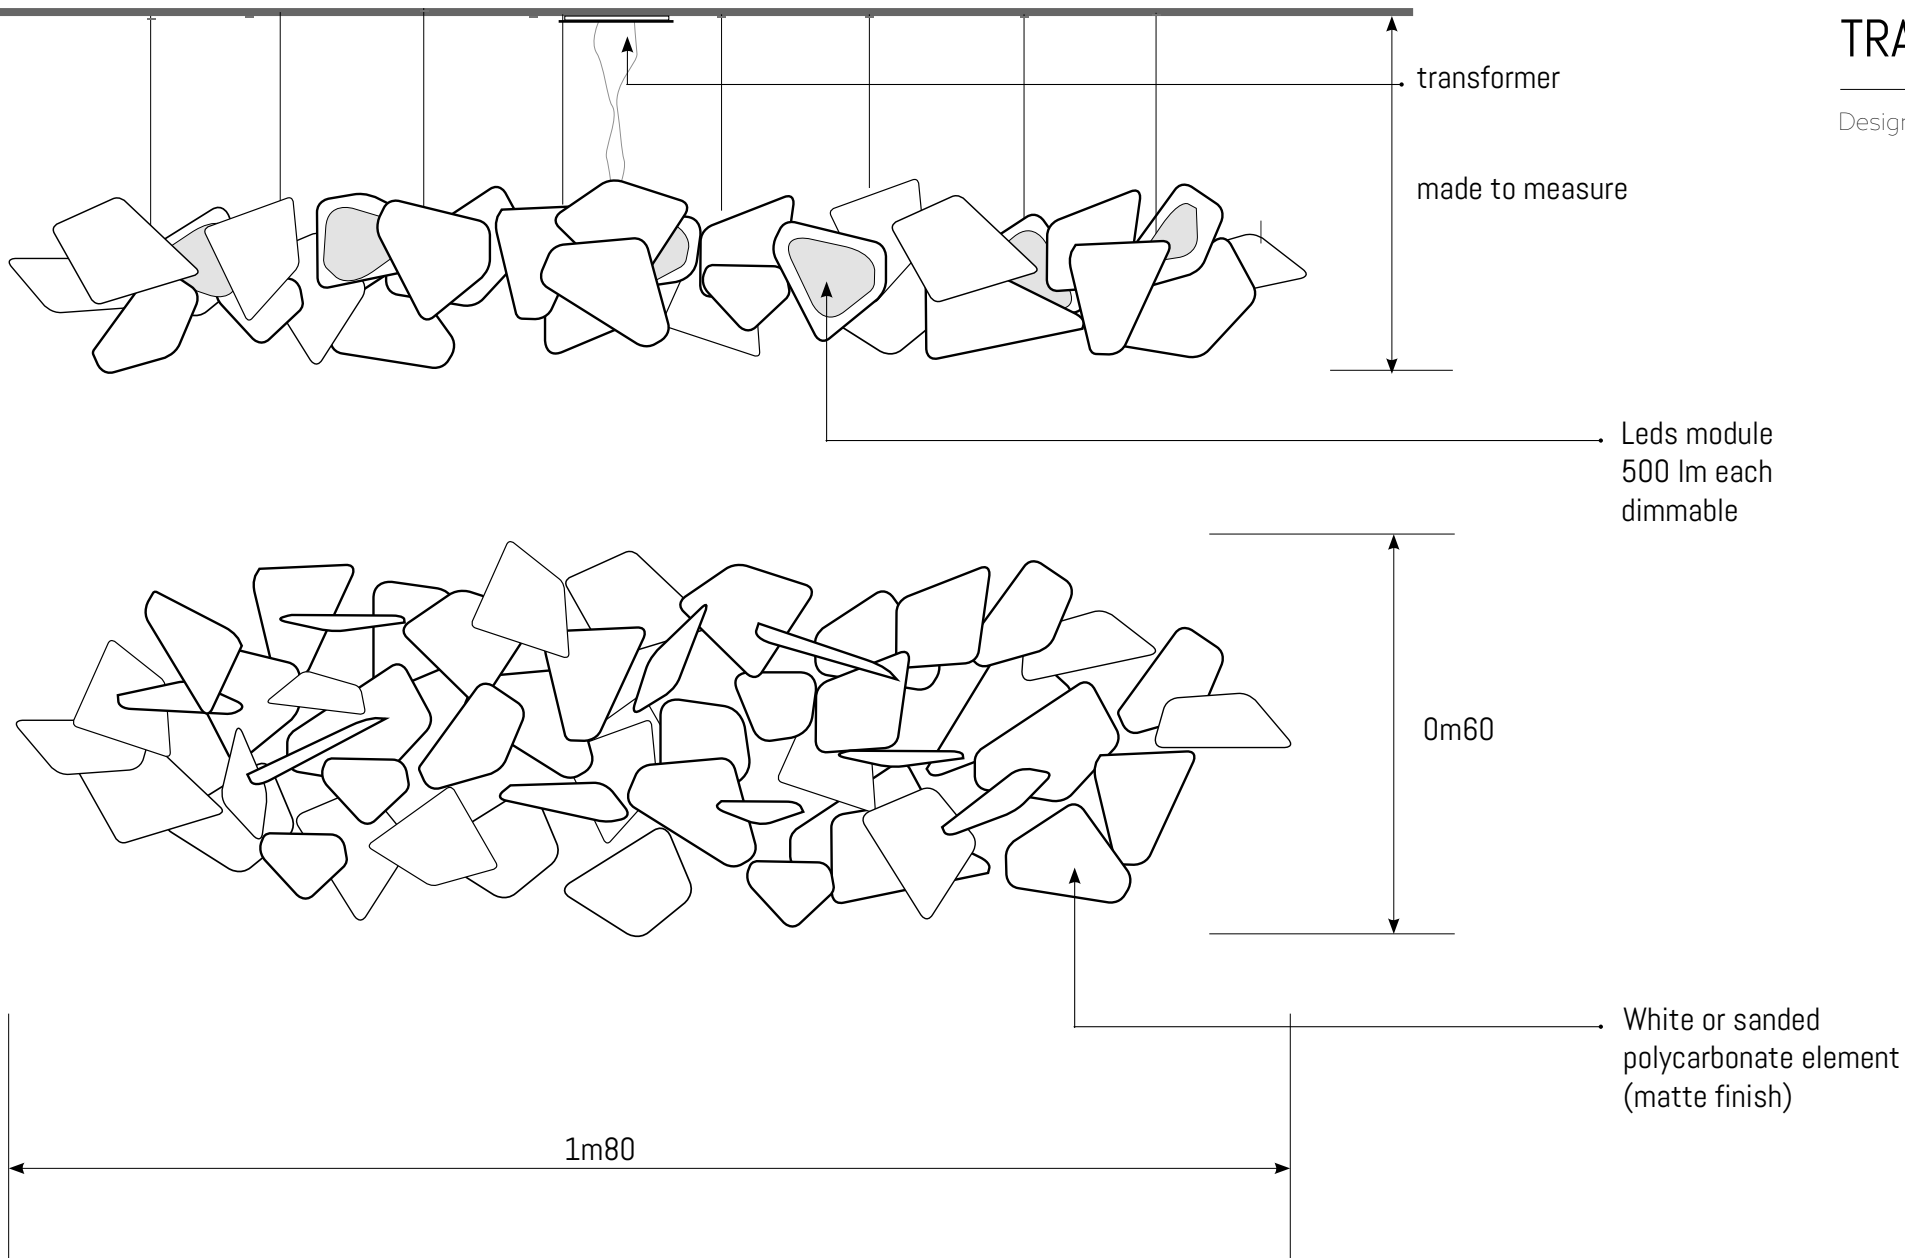

IP20
